EXPERIENCE

MET Sales and Trading

Zug, CH

Quantitative & Market Risk Intern – LNG and Power Desks

June 2026 – Present

- Design, backtest, and evaluate gamma & theta scalping strategies to hedge physical power-plant exposures
- Quantify cross-desk risk sensitivities and recommend hedges to maintain delta-neutral Power/LNG books

Exponential Technology

Chicago, IL

Quantitative Researcher

October 2025 – March 2026

- Developed an ensemble machine learning stack for Non-Farm Payroll forecasting, delivering 20.8% lower 50 month walk-forward OOS RMSE vs economist consensus and a lower absolute error in 74% of those OOS months

AXA Investment Managers (Acquired by BNP Paribas)

Paris, FR

Assistant Portfolio Manager Intern – Emerging Markets Fixed Income Team

June 2024 – August 2024

- Implemented dynamic Nelson-Siegel models to analyze yield curve sensitivity using cleaned live Bloomberg and proprietary data, identifying maturity buckets with significant z-score deviations for relative value opportunities

Assistant Portfolio Manager Intern – Emerging Markets Fixed Income Team

June 2023 – August 2023

- Built full-stack applications with BQuant and VBA for cleaning data for bonds, calibrating models with mean square error diagnostics, live spread/duration pulls, z-score heat-maps, and rolling pair-wise correlations

Resolv (Web3 Asset Protection Start-Up)

Chicago, IL

Chief Operating Officer

October 2023 – December 2024

- Orchestrated a \$450k pre-seed round and scaled user acquisition to 2,000+, securing \$100M in LOIs for platform assets

RESEARCH & PROJECTS

Cross-Asset Allocation & Options Hedging

May 2026 – June 2026

- Engineered cashflow aware cross-asset optimizer; OOS returned 15.1% annualized, 2.00 Sortino, -19.9% max drawdown vs SPY's 14.2%, 1.14, -23.9%; stress-tested via CPCV/PBO, bootstrap, and EGARCH Monte Carlo

AI-Powered Live Prediction Market Forecasting Agent

May 2026 – May 2026

- Designed a Brier-optimized Kalshi forecasting agent with historical/live data, LLM signal lanes, and judge aggregation

University of Chicago Economics Department Thesis

November 2024 – May 2025

- Authored honors thesis studying educational outcomes after Syrian refugee integration into Canadian schools

LEADERSHIP & ACTIVITIES

University of Chicago Chess Club

Chicago, IL

Board Member

September 2022 – Present

- Help organize and compete in chess competitions to represent UChicago across the USA and internationally

University of Chicago, Economics & Mathematics Departments

Chicago, IL

Teacher's Assistant – Microeconomics, Pre-Calculus, Calculus, Number Theory

September 2022 – March 2026

- Lead discussion sections and office hours, developed and graded problem sets and exams, and ran review sessions

Phoenix Funds

Chicago, IL

Member / Executive Board Member / Co-President

September 2021 – June 2025

- Facilitated learning of fixed income and derivatives for underclassmen focusing on real-world applications
