

Dhruv Kohli

Chicago, IL | (773) 726-1806 | dhruvk@uchicago.edu | <https://github.com/dhruvk1432>

EDUCATION

The University of Chicago (GPA : 3.9/4.0)

Master of Science in Financial Mathematics

Expected Dec 2026

- Courses: Multivariate Statistics, Portfolio Management, Statistical Inference (PhD), Time Series Analysis (PhD)

B.S. in Mathematics with Honors & B.A. in Economics with Honors

Jun 2025

- Courses: Econometrics, Machine Learning, Python, Statistics & Probability, Real & Complex Analysis

HONORS & AWARDS

- 2025 CME Trading Challenge: 2nd place out of 1,864 participants across the world – Leader of Team Inefficient Markets, achieved 4x portfolio growth over one month using gold and silver statistical opportunities
- 2024 UChicago College New Venture Challenge: 3rd place, raised \$50,000 for Resolv

SKILLS

Computing: Python, SQL, R, VBA, MATLAB, BQuant

Knowledge: Machine Learning, Statistical Modeling, Data Analytics, Econometrics, Optimization, Monte Carlo

Certifications: Akuna Capital Options 101, Akuna Capital Options 201

EXPERIENCE

MET Sales and Trading

Zurich, CH

Incoming Quantitative & Market Risk Intern

June 2026 Start

Exponential Technology

Chicago, IL

Quantitative Researcher

Oct 2025 – March 2026

- Engineered a point in time U.S. Nonfarm Payroll forecasting system using macro data, walk-forward validation, and LightGBM / Optuna tuning models paired with a Kalman fusion filter, beating economist consensus by 20%
- Designed an ETL pipeline paired with a dynamic feature selection algorithm across private and public sources, enforcing release-lag and revision constraints to eliminate lookahead bias and produce defensible OOS backtests

AXA Investment Managers (Acquired by BNP Paribas)

Paris, FR

Assistant Portfolio Manager Intern

Jun 2024 – Aug 2024

- Implemented dynamic Nelson-Siegel models to analyze yield curve sensitivity using cleaned live Bloomberg and proprietary data, identifying maturity buckets with significant z-score deviations for relative value opportunities
- Formulated trading strategies by synthesizing macro data, world news, and central bank policy for PMs

Assistant Portfolio Manager Intern

Jun 2023 – Aug 2023

- Built full-stack applications with BQuant and VBA for cleaning data for bonds, calibrating models with mean square error diagnostics, live spread/duration pulls, z-score heat-maps, and rolling pair-wise correlations

Resolv (Web3 Asset Protection Start-Up)

Chicago, IL

Chief Operating Officer

Oct 2023 – Dec 2024

- Orchestrated a \$450k pre-seed round and scaled user acquisition to 2,000+ early adopters, securing \$100M in LOIs for platform assets, demonstrating significant market validation prior to product launch
- Doubled operational runway through lean cost-control initiatives and strategic equity distribution

RESEARCH

University of Chicago, Economics Department

Chicago, IL

Thesis: The Impact of Refugees on Educational Outcomes of Residents

Nov 2024 – May 2025

- Authored honors thesis studying educational outcomes after Syrian refugee integration into Canadian schools using PISA micro-data, concluding varying effects based on gender and urbanity of students

LEADERSHIP

University of Chicago, Economics & Mathematics Departments

Chicago, IL

Teacher's Assistant – Microeconomics, Pre-Calculus, Calculus, Number Theory

Sep 2022 – March 2026

- Lead discussion sections and office hours, develop and grade problem sets and exams, and run review sessions

Phoenix Funds

Chicago, IL

Member / Executive Board Member / Co-President

Sep 2021 – Jun 2025

- Facilitated learning of fixed income and derivatives for underclassmen focusing on real-world applications
